

Title (Calibri 16, bold)

Author ¹, Author², Author³ (Calibri 10, single line spacing)

¹ Type the affiliation of all the authors (remember ^{1, 2 or 32} Affiliation

Type the email address of the submitting author

Keywords: Keyword 1, Keyword 2, Keyword 3

Abstract (Calibri 10, Bold, Italics, single line spacing)

The abstract is to be written in Calibri source and 10 points. The length of the abstract is maximum 1 page of a DIN A4, including all the section required. Text is to be justified.

Abstracts should describe an original research work, including methodology (materials and methods), main results and conclusions that can be drawn from it. Short abstract comprising one A4 page length should be submitted online.

Figures and tables can also be included in case they result relevant. Text can be located surrounding both, figures and Tables.

As it appears in Fig. 1, a CMM touch probe is needed to properly evaluate the AM accuracy. Footnote is centered.

Figure 1. Figure
footnote description.

A table example is shown below (see Table 1). Tables are centered. Footnote is justified to the left.

Table 1. Table description.

Material	V _f [mm/min]	a _c [mm]	P [W]
Inconel 718	500	0.050	1000
AlSi10Mg	600	0.025	1000
Ti	700	0.100	1000

References (Calibri 10, Bold, Italics, single line spacing)

All references must be cited, and vice versa. A complete reference should provide. In the numerical system, you should number your references sequentially through the text (e.g. [1], [2, 3, 4-8]).
